

**Pew Global Attitudes Project: Spring 2007 Survey**  
**Survey of 47 Publics**  
**----FINAL 2007 TRENDS TOPLINE----**

Countries and regions included in the survey:

*The Americas:* Argentina, Bolivia, Brazil, Canada, Chile, Mexico, Peru, United States, Venezuela

*Western Europe:* Britain, France, Germany, Italy, Spain, Sweden

*Eastern Europe:* Bulgaria, Czech Republic, Poland, Russia, Slovakia, Ukraine

*Middle East:* Egypt, Israel, Jordan, Kuwait, Lebanon, Morocco, Palestinian territories, Turkey

*Asia:* Bangladesh, China, India, Indonesia, Japan, Malaysia, Pakistan, South Korea

*Africa:* Ethiopia, Ghana, Ivory Coast, Kenya, Mali, Nigeria, Senegal, South Africa, Tanzania, Uganda

Methodological notes:

- Data based on national samples except in Bolivia, Brazil, China, India, Ivory Coast, Pakistan, South Africa, and Venezuela, where the samples were disproportionately or exclusively urban.
- In Britain, Canada, Czech Republic, France, Germany, Slovakia, Sweden, and United States, the questionnaire was split into two forms, each of which was administered to approximately one-half of the sample. In these countries, most questions were assigned to one form or another. The exceptions were questions 42-44, 105, and all demographic questions, which were included on both forms and asked of the full sample.
- Due to rounding, percentages may not total 100%. The topline “total” columns always show 100%, however, because they are based on unrounded numbers.
- When the number of respondents in a category is less than one half of one percent (<0.5), the figure is rounded to zero (0%).
- For this survey, a new process is being used to generate toplines, with different rules for rounding decimal places. As a result, numbers may differ slightly from previously published numbers.
- Data from 2002 in India and Nigeria have been reweighted since their initial publication, and the revised numbers may differ from previously published numbers.
- As noted above, the 2007 South Africa sample is disproportionately urban. However, in the 2002 survey, the South Africa sample was nationally representative. To make the 2002 data comparable to the 2007 sample for comparative purposes, we have included in this topline 2002 data from urban and suburban areas only.
- Previous trends from Egypt, Mali, and Senegal in 2002, and Morocco in 2003 and 2005, are not shown because those results were based on disproportionately urban samples, while the 2007 samples are nationally representative in these four countries.

Q.1 HELD FOR FUTURE RELEASE  
 Q.2 THROUGH Q.18 PREVIOUSLY RELEASED

		Q.18a Please tell me whether you completely agree, mostly agree, mostly disagree or completely disagree with the following statements: a. Most people are better off in a free market economy, even though some people are rich and some are poor.					Total
